BELASCO THEATER ARRANGES SEASON OF COLOR PICTURES

Roof Garden Will Be Open for Use of Patrons of Show.

With the opening of the Belasco The ater to kinemacolar pictures last night, a summer season of highly interesting and educational entertainment was inaugurated.

Six reels of motion pictures in gorgeous coloring were presented last evening, two performances being given. the first commencing at 7:30, and the

later. A descriptive lecture will be de-livered at each performance. A daily matinee will be given at 3 o'clock, and two performances each night at 7:30 and 9 o'clock. The Belasco roof garden, with free refreshments and music, will be open daily at 7:30 to kinemacolor patrons. Many are expected to take ad-vantage of that retreat to witness the fireworks' display at the monument grounds tonight. grounds tonight.

The offering at the Columbia Theater for next week will be the four-act drama "Zira," by Hartley Manness and Henry Miller. Since the days when the play was first given to the public at the Princess Theater in New York, by the Henry Miller Stock Company, it has been regarded as even a stronger exposition of the story, which forms the basis of both the play and the Wilkie Collins' novel, than Mr. Collins succeeded in making his book, "The New Magdalen." The story deals with the adventures of a nurse in the Boer war who secures entrance into with the adventures of a nurse in the Boer war who secures entrance into one of the most aristocratic homes in England, by papers which she obtains from a dying patient. The first act, which is a kind of a prologue, takes place in South Africa, at the heal-quarters of the general, who is in com-mand of the English forces at the closa of the war, but the three ensuing acts take place in England.

At Poll's Theater the coming week, "The Commuters," by James Forbos, will be the attraction, and from all former successes should prove an ideal warm weather comedy. "The Commuters" tells the story of Hetty and Larry Brice, who live in the suburbs, and of Larry's bachelor friend, Sammy Fletcher who is marooned in the country, and finds out that as much excitement can be had outside of the city limits as within them, thereby disproving his own theory. There are numerous amusing character studies which will afford the Poli players excellent opportunities for the exploitation of their versatility.

As a continuation of their summer

Ag a continuation of their summer vaudeville shows the Cosmos Theater brings to Washington next week the criginal eight "Texas Tommy Dancers," brings to Washington next week the criginal eight "Texas Tommy Dancers," who are now finishing a three weeka' engagement at Hammerstein's "Roof." This is the act that was brought from the "Barbary Coast" of San Francisco by Lee Schubert for his New York winter garden, where it was a big sensation, playing there for nine consecutive weeks. Next week's engagement at the Cosmos will be their first outside of New York city since leaving the West, and they will immediately return to New York to play twelve weeks at the Garden Cafe. The act is in the form of a dancing contest between four couples for a trophy posted by the theater, the contests are to be decided by the applause of the audiences and the couple winning the largest number of contests is awarded the trophy.

Five other acts will be on the bill, including the National City Four, a local singing quartet; Frances and De Mar, a refined comedy, singing, planologue sketch team; Louise Hudson, one of the few women ventriloquists, and Charles Heclow, an eccentric singing and acrotatic dancing comedian. One other act is yet to be announced.

Anacostia is observing the Fourth of the family sounders of the Fourth of the family sounders of the fourth of the family sounders with family reunions and outings in

parks and on streams, while the fluttering of many flags from Anacostia homes heightens the patriotic interest. With business suspended generally, there was an exodus for the recreation places, many parties boarding launches and leaving the Anacostia river for a trip down the Potomac, while other excursionists visited the country and the parks. Later in the day homes were

the first commencing at 7:30, and the second at 9 o'clock. One of the most colorful and magnificent of the pictures was of a sunset in Egypt, the pyramids, the stretch of yellow sand, and the remarkable cloud effects being especially effective.

These remarkable motion pictures reproducing scenes and subjects of international interest, are the latest invention of animated photography, projecting every subject in nature's own colors by a patented process which has no connection with hand or mechanical coloring. The new subjects for next week will include "Tulip Cultivation," an artistic and instructive floral subject; "Keptiles of Asia," bringing to local view a zoological exhibit made possible only by the daring of kinemacolor operators, "The Almighty Dollar," in two recists and others which will be announced later. A descriptive lecture will be divered at each performance, A daily mattine will be given at 2 o'clock, and recreation on the lawns, baseball games on the asylum diamond and similar pastimes. SLUMP LAST WEEK

Market Rises Steadily and Section of Fauquier County Remains Firm—Little Business Today.

After the big slump in the prices of all sorts of fish last week, the local market has been gradually rising all week, and this morning most of the varieties were pretty firm at figures about ten per cent higher than those of a week ago.

Independence Day had little effect on the market except to make the sales earlier. There was not as much sold because many of the venders are celebrating the holiday, and Center Market closed before noon. But the wholesalers had foreseen this situation and had not bought as much, so that the prices on the wharves were just about the same as they would have been if today had not been a holiday.

Butterfish is about the only instance where a big rise has occurred. It has just about doubled in the past week, selling for 6 cents today as against 3 cents last week. Jersey trout is bringing from 8 to 10 cents, while weak trout is in good demand at \$10 a. barrel. Small trout are going as low as \$4 and \$5, and there was an abundance on the market.
